How Will Chinese Capital Go Out after the Global Financial Crisis? A Case Study of the International Strategies of Chinese Securities Companies

Ding Xiaowei Gao Shuping

Abstract: How will Chinese capital go out after the global financial crisis? Chinese securities companies are clearly playing a crucial role as major financial intermediaries. Their international strategies include the establishment of a cross time zone transaction system, the combination of quantitative transactions and non-quantitative transactions, the combination of domestic contract and outsourcing, self-run transaction and capital management, the seek for overseas investment and capital management.

Keywords: Chinese capital; Chinese securities companies; international strategies
